

Helena is a visual artist with a photo documentary background. Their working process is always driven by collaboration and community-building processes, and often pointing out at the perverse relationship between medium and power. Since the beginning of the COVID-19 pandemic in 2020, they are exploring the political aspects of digital intimacy. Understanding consent as the common denominator, they use the camera to reverse and deconstruct ideas such as the patriarchal gaze and to look for practices of collective self-defense.
